LAPTOP CONFIGURATIONS

Recommended Systems

▶ **System 1:** Intel Core i5-10210U, 8GB RAM, 256GB SSD, Windows 10 Pro, 14" display, 1.2kg weight, 8 hours battery life.

▶ **System 2:** AMD Ryzen 5 5500U, 16GB RAM, 512GB SSD, Windows 10 Pro, 15.6" display, 1.8kg weight, 10 hours battery life.

▶ **System 3:** Intel Core i7-1065G7, 16GB RAM, 512GB SSD, Windows 10 Pro, 14" display, 1.1kg weight, 10 hours battery life.

▶ **System 4:** AMD Ryzen 7 5700U, 16GB RAM, 512GB SSD, Windows 10 Pro, 15.6" display, 1.9kg weight, 11 hours battery life.

Note: All systems are recommended for general use and light productivity. For heavy workloads, consider a workstation or a laptop with a dedicated GPU. Always ensure your system has the latest drivers and security updates installed.

CARE & MAINTENANCE

▶ **General Care:** Avoid liquid spills, extreme temperatures, and physical damage. Use a soft, lint-free cloth for cleaning the screen and keyboard.

▶ **Battery Maintenance:** Avoid fully charging or discharging the battery. Store the laptop with a 50% charge if not in use for an extended period.

▶ **Software Updates:** Regularly update the operating system, drivers, and applications to ensure security and performance.

▶ **Storage Health:** Monitor the health of your SSD using built-in tools or third-party software. Avoid filling the drive to the brim.

▶ **Physical Maintenance:** Clean the vents and fans to prevent dust buildup, which can lead to overheating.

UCM TECHNOLOGY SUPPORT

▶ **Support Channels:** Contact our support team via email, phone, or our online chat for assistance with any issues.

▶ **Warranty:** All systems come with a standard 3-year warranty. Extended warranty options are available for purchase.
